Aarav Mehta

Data Analyst · SQL · Python · Power BI

Pune · +91 90000 10001 · aarav.mehta@example.com · github.com/aarav-mehta-data

Summary

Final-year Computer Engineering student who turns messy business data into dashboards and decisions. Two analytics internships and a published A/B testing case study.

Experience

Data Analyst Intern · Kirana Kart (D2C grocery)
Jan 2026 – Jun 2026
• Wrote SQL with window functions and CTEs on 4M order rows to find the 3 cities driving 60% of repeat purchases.
• Built a Power BI dashboard on delivery delays used every Monday by a 12-person operations team.
• Analysed an A/B test on free-delivery thresholds; the winning variant lifted average order value by 9%.

Business Analytics Intern · Sahyadri Logistics
May 2025 – Jul 2025
• Automated a weekly Excel report with Python and Pandas, saving the finance team 5 hours a week.
• Cleaned 18 months of shipment data and flagged 240 duplicate invoices worth ₹11 lakh.

Projects

Campus Food Demand Forecast
github.com/aarav-mehta-data/canteen-forecast
• Forecast daily canteen orders with Python (Pandas, statsmodels); cut food waste 14% over a 6-week pilot.

Skills

Analytics: SQL (PostgreSQL, MySQL), Python (Pandas, NumPy), Excel, statistics, A/B testing
BI: Power BI, Tableau, Google Analytics 4
Tools: Git, Jupyter, dbt (basics)

Education

B.E. Computer Engineering · Savitribai Phule Pune University
2022 – 2026 · CGPA 8.6/10

Certifications and achievements

• Google Data Analytics Certificate, 2025
• Winner, Inter-college Data Hackathon, Pune 2025
