Diya Iyer

AI Engineer · LLM apps · RAG · Python

Bengaluru · +91 90000 10002 · diya.iyer@example.com · github.com/diya-iyer-ai

Summary

Computer Science student building LLM products end to end: retrieval, agents, evals and the APIs around them.

Experience

AI Engineering Intern · Lexora Legal AI

Jan 2026 – Present

• Built a RAG pipeline over 40,000 court judgments with pgvector and FastAPI; answer accuracy on our eval set rose from 61% to 84%.
• Set up Langfuse tracing and an LLM-as-judge eval suite of 300 questions that runs on every pull request.
• Cut cost per query by 38% by routing simple questions to a smaller model.

Projects

StudyBuddy Agent

github.com/diya-iyer-ai/studybuddy

• LangGraph agent that plans revision schedules and quizzes students from their own notes; 450 weekly users on campus.
• Deployed with Docker on AWS ECS; p95 latency under 2.5 seconds.

Fine-tuned Hindi FAQ Bot

github.com/diya-iyer-ai/hindi-faq

• Fine-tuned an open-source 7B model with LoRA on 6,000 Hindi support questions.

Skills

AI: OpenAI, Anthropic and Gemini APIs, RAG, LangGraph, LangChain, evals, prompt engineering, LoRA
Backend: Python, FastAPI, PostgreSQL, pgvector, Redis
Cloud: Docker, AWS (ECS, S3, Lambda), GitHub Actions, Git

Education

B.Tech Computer Science · PES University, Bengaluru

2022 – 2026 · CGPA 9.1/10

Certifications and achievements

• Finalist, Smart India Hackathon 2025
• Speaker, PyCon India 2025 student track
