Meera Pillai

Security Analyst · Network Security · CTF Player

Thiruvananthapuram · +91 90000 10010 · meera.pillai@example.com · github.com/meera-pillai-sec

Summary

Security-minded CS student. Finds problems before attackers do, and writes them up clearly.

Experience

Security Intern · Kavach SOC Services

Jan 2026 – Jun 2026

- Triaged 600+ SIEM alerts in Splunk and wrote 12 new detection rules that cut false positives by 30%.
- Ran internal vulnerability scans with Nessus and tracked 85 findings to closure.

Projects

Web App Pentest Lab

github.com/meera-pillai-sec/pentest-lab

- Found and documented OWASP Top 10 issues (SQL injection, XSS, IDOR) in 5 deliberately vulnerable apps using Burp Suite.

Phishing URL Detector

github.com/meera-pillai-sec/phish-detect

- Python and scikit-learn classifier with 96% precision on 20,000 URLs.

Skills

Security: Network security, OWASP Top 10, incident triage, threat hunting, vulnerability management
Tools: Wireshark, Nmap, Burp Suite, Metasploit, Splunk, Nessus
Programming: Python, Bash, SQL, Linux

Education

B.Tech Computer Science · College of Engineering Trivandrum

2022 – 2026 · CGPA 8.5/10

Certifications and achievements

- CompTIA Security+, 2025
- Top 50 of 1,800 teams, InCTF 2025
- Responsible disclosure: 2 acknowledged bugs in university web portals
